

Regardless of what the poor-picked-upon bankers might say, their predictive dialers are easily programmed to accomodate the DO-NOT-CALL list in wisconsin.

If I wanted to hear from whoring bankers whining that I don't waste enuf money in their pockets, I'd call the whining bankers myself!

Do NOT let the bankers tell you that state-based do-not-call lists are unnecessary and difficult.

We put those law in place PRECISELY to avoid hearing from whiners, wankers and bankers!
